## **Chapter 1 -- Section 306/306A**

### **Task 1.1 Coastal Zone Management**

#### **Coastal Zone Management Grants to Locals**

See Attached Chart

### **Task 1.5 Federal Permitting**

#### **Clean Water Act Section 404 Review**

We completed Phase I (development) of a new 401 Water Quality Certification/Coastal Zone Management tracking system (401/CZM database). The system was developed in partnership with Ecology's Information and Applications Services Section, it will result in improved tracking, reporting, and compliance monitoring for 401 certifications issued in the Coastal Zone counties. Plus this system will allow Ecology to provide additional information regarding projects in the Coastal Zone counties to the public and federal agencies. The project will be ready for Phase II trial use in August.

### **Task 1.6 Padilla Bay Reserve**

During this performance period, staff members at Padilla Bay Reserve provided estuary education programs to 13 high school classes for a total audience of 451 students.

Padilla Bay staff completed a need assessment in preparation for the additional two public workshops. It was determined the Department had done a good job coordination with all local and state agencies and individuals in the agricultural community it was now time to go directly to the public. The best approach to reach the majority of land owner was considered televised public announcements. Ecology collaborated with Washington State Health Departments, Conservation Districts and the Shellfish industry to develop two public announcements that are aired on local TV stations. A VCR copy of these announcements are available.

## **Chapter 2 -- Section 309**

### **Task 2.1 Implementation of Legislative Changes to the Shoreline Management Act**

The intensive year long negotiations on the Shoreline guidelines rule reached conclusion and produced a settlement agreement amongst the parties to the lawsuit that was debuted at a Governors Press conference in December 2002. This allowed Ecology to progress forward with the formal guidelines rule adoption process which began in June 2003. Also completed in the same time frame were the supporting documents to the guidelines rule including a Cost-Benefit Analysis, Small Business Economic Impact Statement and Supplemental Draft Environmental Impact Statement.

**Local Government Grants – Semi-Annual Progress Report**

**Reporting Period (1/1/2003 – 6/30/2003)**

**FFY 01**

Recipient	Type	Project Officer	Comments
<b>Gig Harbor, City of</b>  SMP Update	CZM306  G020048	Randy Davis  Start 7/1/01 End: 6/30/03	Project is a comprehensive update of the SMP. The draft inventory and draft SMP were completed. The recipient will not complete the entire project due to schedule delays and the need to terminate the CZM grant on June 30 <sup>th</sup> . The remaining tasks prior to SMP approval will be completed by the recipient without CZM grant support.
<b>Mukilteo, City of</b> SMP Update – Final Phase	CZM 306  G0200090	Alice Schisel  Start: 7/1/01 End: 6/30/03	The City of Mukilteo's consultant has submitted a draft shoreline characterization report prepared under the extended grant and is currently integrating Ecology comments on the draft into a final document. Any costs incurred beyond June 30 will be paid for by the City. The work produced under the extension is a real improvement over the City's initial inventory work and will include a series of maps and aerial photos that clearly display inventory data. The final product will include suggestions for integrating inventory information into the City's new SMP and for amending the draft SMP's policies and regulations to reflect inventory findings.
<b>Pacific County</b> Involvement in Bio-intensive Spartina control (public outreach / networking)	CZM 306  G0200046	Perry Lund  Start: 7/1/01 End: 6/30/03	Through a cooperative arrangement with the Columbia Pacific Resources Center, there have been several excellent newsletters produced, public workshops, and landowner outreach efforts
<b>Sumner, City of</b>  Phase 2: SMP Update	CZM306  G0200047	Randy Davis Start: 7/1/01 End: 4/30/03	Phase II is the preparation of a final draft SMP and its' review and adoption. The City approved SMP has been submitted to Ecology for formal review and approval. The grant was completed on April 30, 2003
<b>Wahkiakum County</b>  SMP Update	CZM306  G0200039	Randy Davis  Start: 7/1/01 End: 4/30/03	This project is Phase I of the SMP update and involves the preparation of a shoreline atlas. The recipient has completed the shoreline inventory work and atlas. The grant was completed on April 30, 2003.
